

THE ANNUAL CANNABIS CLINICAL OUTCOMES RESEARCH CONFERENCE | ORLANDO, FL

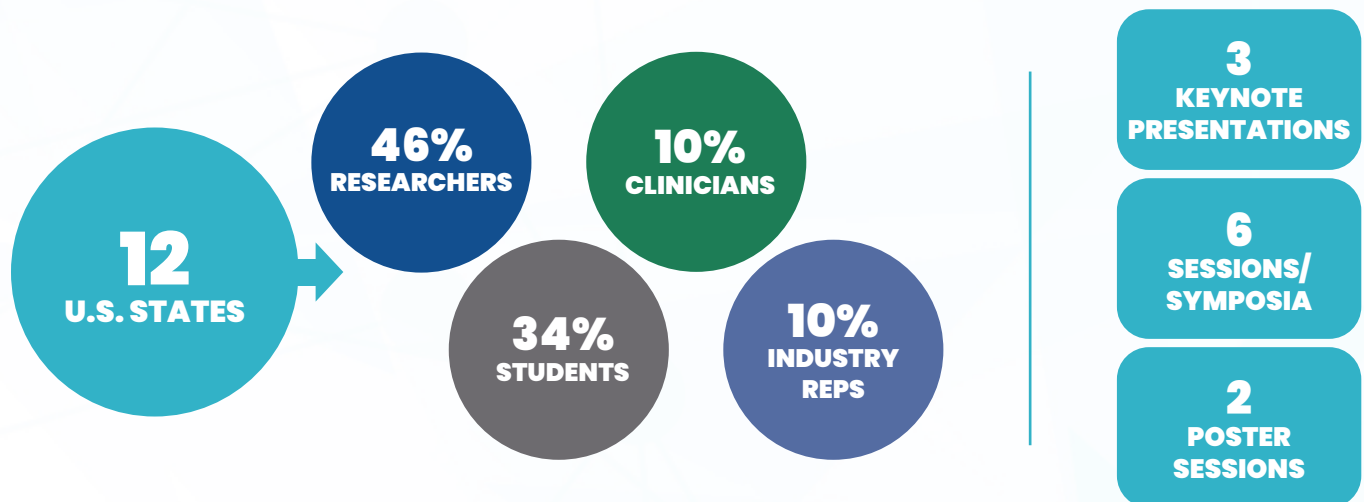

Hosted by the Consortium for Medical Marijuana Clinical Outcomes Research, the annual Cannabis Clinical Outcomes Research Conference (CCORC) completed its milestone fifth year in 2025.

- **Research-centric meeting** on translational and clinical outcomes of medical marijuana use open to patients, providers, and industry collaborators
- **Open call for abstracts and session proposals** will be released in the months before the conference
- **Abstracts are peer-reviewed and published** in Medical Cannabis and Cannabinoids journal

More information is available on our website ccorc.mmjoutcomes.org.

CCORC 2025 BY THE NUMBERS:

TOPICS INCLUDE:

- **Clinical outcomes of research on cannabis use** stemming from translational, clinical, or population health studies
- **Educational, quality improvement projects, or policy evaluation** involving the use of medical marijuana or other cannabinoids
- **Investigations on use behaviors or trends**

PROGRAM HIGHLIGHTS:

- Keynote speakers*
- Presentation of top abstracts
- Symposia/panels
- Poster sessions
- Exhibitors
- Networking reception
- Awards ceremony

**Keynote speaker presentations may be eligible for CME/CPE credits*

SUBMITTING AN ABSTRACT OR SESSION PROPOSAL:

Once the submission window is opened, submission forms will be available on our website. Submissions will be peer-reviewed and those presented will be published in Medical Cannabis and Cannabinoids. Students presenting abstracts from Consortium member universities may be eligible for travel support.

To be notified when the call for abstracts is released, please join our CCORC email list:
